Assignment I204a Feedback

This feedback is effectively a code review; to keep it concise, notes are provided as a numbered list. Inline comments in your code illustrate an example of the numbered item (there may be more). Asterisks (*) denote high-priority issues. If any code review item is unclear or if the resulting proficiencies are not self-explanatory, please ask me.

Joseph Barbosa

jbarbosa1 / jbarbos1@lion.lmu.edu

1. Incorrect indentation (*4c*)
2. Suboptimal or inconsistent spacing (*4c*)
3. Tab in the source code (yes, even if just one, *I will hunt you down and find you :)*) (*4c*)
4. Inappropriate assumption—note in `setDrawingArea` that we can actually accept *any* jQuery collection of elements for conversion into a “drawing area.” Thus this jQuery expression is tantamount to a `hardcode`...a different approach will need to be taken here for full reusability. (*3a, 4a, 4b*)
5. Multiple jQuery calls to the same object: can be chained into one long statement (*4a, 4c*)
6. LOL Oscar—nice touch (*2b*)
7. Deletion feedback could be better—some uncertainty when truly over Oscar (*2b*)
8. When creating multiple boxes, some boxes get “lost” and stop rubberbanding prematurely (*3a, 3b, 4a*)
